Dual Enrollment College Courses Calculators & Supplies:

College Algebra:

- You will need a scientific calculator. The **TI-30XS MultiView** is recommended by the college (LSSC), however; just about any scientific calculator will suffice. Calculators must be approved by instructor.
- **No graphing calculators or DESMOS**

Precalculus, Trigonometry, and Calculus:

- You will be allowed to use a graphing calculator on **some** tests and homework, but not all. When a graphing calculator is not allowed, you may use a 4-function calculator or **possibly** a scientific calculator. The TI-84+ graphing calculator is recommended by the college (LSSC) when a graphing calculator is allowed. **No DESMOS, TI-89, TI-Nspire, or TI-92 graphing calculators are allowed. If you use another brand of calculator, such as Sharp or Casio, it needs to be approved by your instructor, also make sure you have an instruction manual to use. IF YOU BUY A NEW GRAPHING CALCULATOR, PLEASE MAKE SURE IT IS APPROVED BY YOUR INSTRUCTOR BEFORE YOU OPEN THE PACKAGE AND SAVE YOUR RECEIPT!**

Elementary Statistics:

- A graphing calculator is **required** for this course. The TI-84+ is the recommended graphing calculator. The Elem. Stats. Text has instructions on how to use the TI-84+ calculator. If you use a different calculator, then make sure you have the user manual to look up processes. I am only familiar with the TI-84+ graphing calculator and will not be able to help you with any other brand of calculators. **No DESMOS, TI-89, TI-Nspire, or TI-92 graphing calculators are allowed. If you use another brand of calculator, such as Sharp or Casio, it needs to be approved by your instructor. IF YOU BUY A NEW GRAPHING CALCULATOR, PLEASE MAKE SURE IT IS APPROVED BY YOUR INSTRUCTOR BEFORE YOU OPEN THE PACKAGE AND SAVE YOUR RECEIPT!**
