From: _____
Nurse - Clinic Asst.

FOR HEAD INJURY:

Your child received a bump on the head at school today. Although the child has not displayed any of the symptoms listed below, it is recommended that he/she be watched for any of the following which might indicate some injury:

- Severe headache
- Visual disturbance
- Convulsions (Seizures)
- Unusual behavior such as confusion, irregular breathing, or dizziness
- Unusual drowsiness or harder to wake up than usual
- Nausea and/or vomiting
- Loss of muscle coordination such as falling, walking strangely or staggering
- Bleeding or discharge from the ear

Contact your family physician or Emergency Room if you notice any of the above symptoms.
