

The Villages® Charter School

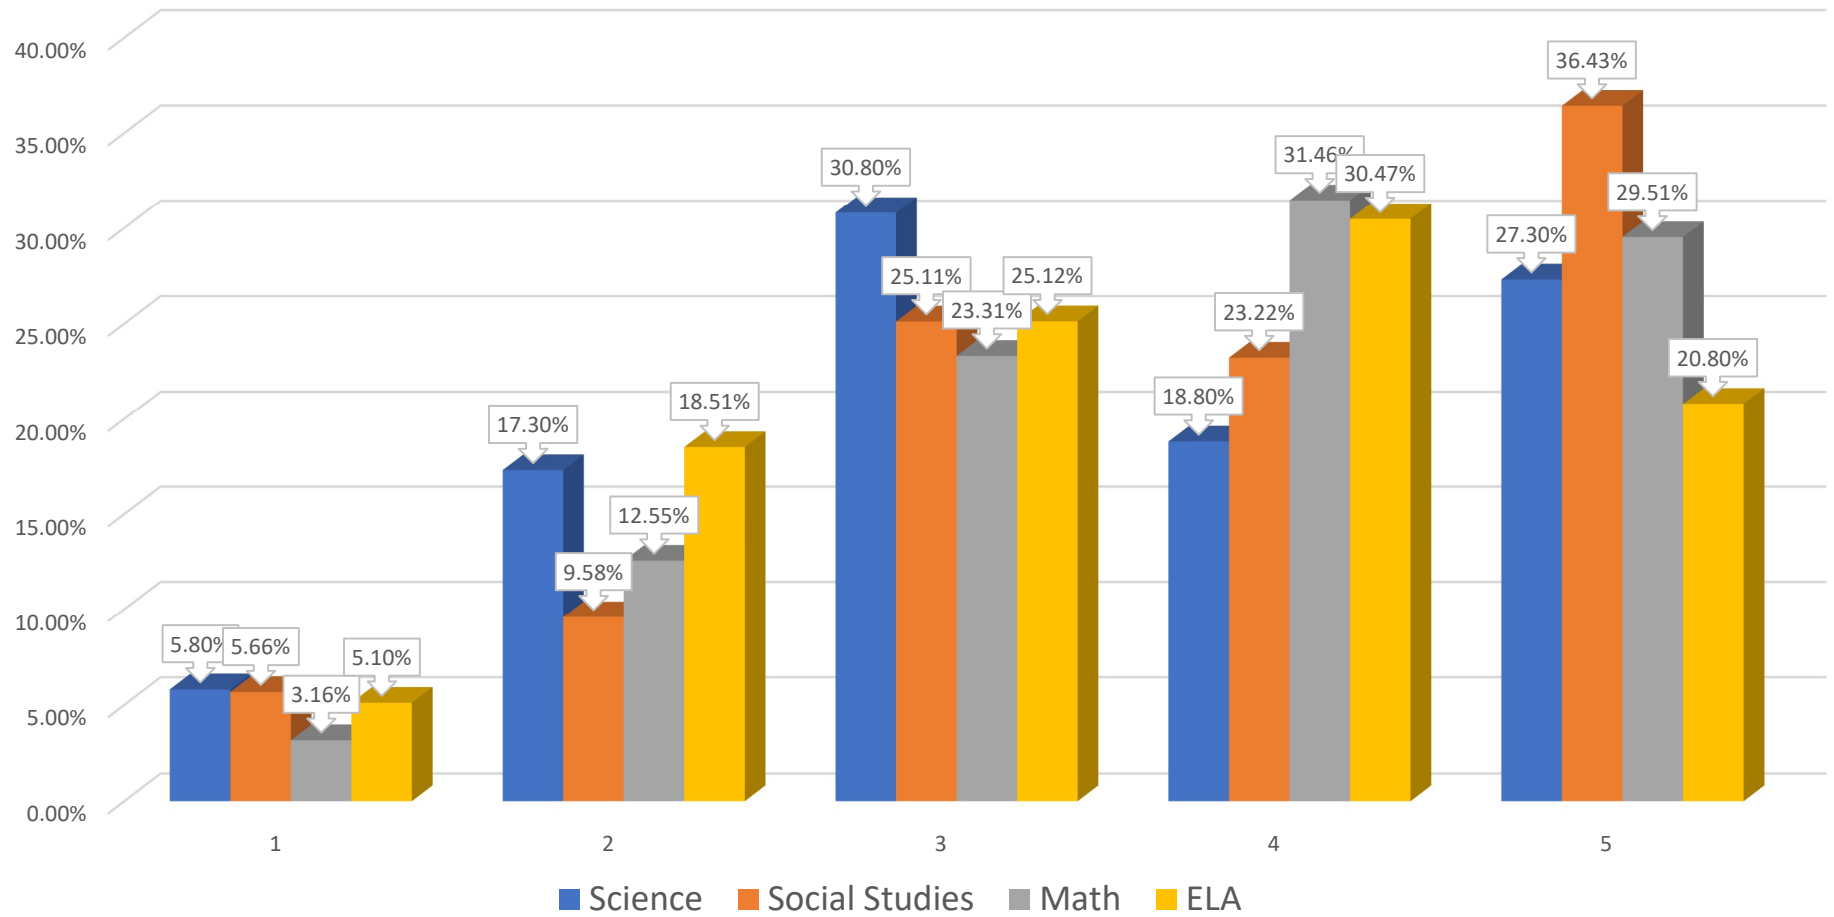

June 29, 2026

The following pages display a quick snapshot of the state assessment scores for The Villages Charter School for the 2025-2026 school year. Page two of this executive summary outlines The Villages Charter School's (VCS) performance compared to the state, surrounding counties and to our performance the previous year (2024-2025). For example, the first assessment (English/Language Arts/ELA) displays the Florida Assessment of Student Thinking (FAST) scores per grade level.

On page two, column A lists the assessment grade level, column B the Florida state average, column C the Sumter County average, column D shows the Lake County Average, column E shows the Marion County average, column F shows the VCS average, column G compares the performance of this year's students at each grade level to the previous year (e.g., how this year's 3rd graders did compared to 2024-2025 3rd graders), column H compares a cohort group to their own performance last year in a comparable exam (e.g., how this year's 4th graders did compared to their own scores on the 3rd grade exam last year), and column I displays the score in 2025. Items in columns G & H that are in red indicate scores that were less than the previous year and items in black are increases. Page 3 shows the results "by achievement level" for all VCS students who took a state exam that counts toward the school grade. Page 4 shows a chart of VCS 2025-2026 performance compared to the Lake, Marion and Sumter counties as well as the state of Florida.
